*Allen W. Dulles
Director of Central Int. Agency
Washington, D.C.*

Dear Sir:

*Note your article
in the Herald Tribune.
One of the main reasons
for Russia equalling our
economic level is the income tax.
The income tax is a tight rope
around the business man's
neck and the average person.
We hear so often that it is
no use doing any more as we
will get in a higher bracket.
I understand Russia has
a 50% income tax and is
planning to cut it out all
to-gether. We have the*

highest income tax in the World. - By cutting out the income tax we could have a mfg sales tax and a Natl Lottery. By having these we would make a big cut in our post office deficit. Along with this if the States and Fed. Gov. would adopt the Hoover plan we would really get moving.

"Now a days we hear so much from the Politician about being Patriotic. Our States and Fed. Gov. are mirrored by lawyers - who are not fitted for the job - States and Fed Gov. is big business - No business in private life would hire a lawyer to manage their business.

So if the lawyers will
~~show~~ real Patriotism and
 love for their country they
 would refrain from running
 for public office. Our
 Gov. should be manned
 by Businessmen, economists,
 bankers etc. - preferably
 retired people. I venture to
 say that in a few years
 after they got in office our
 country would be up so that
 we would have a real boom.

Now our rep. are checking
 on T.V. who are they to see
 if the quiz shows are right or
 wrong. Witness the rep. who
 was paying his school son
 at the rate of \$12,000 per yr or the
 rep. who pay himself \$100⁰⁰ per
 month for the front porch
 and paid his wife also. Are

they investigated?

We hear so much to-day
about juvenile delinquency.
If we Adults would go
the straight and narrow
path - youth would follow.

Yours truly
Theo. J. Nelson

P.S. We hear so much
about being involved in war
with Russia. As long as
we have missiles, they have
missiles there will be no war
as the leaders in the various
countries will not be able to
hide.

MAY 5 1964
